

**PUBLIC INFORMATION NOTICE #18  
FOR THE CONSTRUCTION OF THE  
930 ZONE RECYCLED WATER PIPELINE  
TEMPORARY LANE CLOSURE**

April 3, 2014

Dear Resident/School:

The Inland Empire Utilities Agency’s (IEUA) pipeline contractor will be installing a section of recycled water pipe. The construction process requires a temporary lane closure on Eucalyptus Avenue near the entrance to the Chino Hills Community Sports Park, approximately 500-feet west of Peyton Drive. Traffic will be diverted around the construction. Commuters can expect traffic delays up to 10 minutes.

Traffic will be diverted from April 7, 2014 thru April 11, 2014, but may be delayed should rain occur.

**WHERE:** West bound lane of Eucalyptus Avenue near the entrance to Chino Hills Community Sports Park

**WORK HOURS:** Monday - Friday 8:30 a.m. – 5:00 p.m.

Benefiting the residents and businesses of Chino Hills and Chino, this project will provide recycled water as an additional source of water for landscape irrigation use and groundwater recharge. This project will save approximately 90 million-gallons per year of drinking water, while helping to drought proof IEUA’s service area, help to keep the cost of water low, and provide a reliable source of alternative water. *Funding for this project has been provided in full or in part through an agreement with the State Water Resources Control Board and the Environmental Protection Agency. The contents of this document do not necessarily reflect the views and policies of either the State Water Resources Control Board or the Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use. (Gov. Code § 7550, 40 CFR § 31.20.)*

If you have any **questions about the construction project or wish to receive weekly e-mail updates, please contact Michelle O’Brien at 909-993-1501 or [mobrien@ieua.org](mailto:mobrien@ieua.org)**. For construction updates, please visit [www.ieua.org](http://www.ieua.org).
