Now that Fall is in full swing and Winter is approaching, consider the following:

- Turn your sprinklers off for a week after each full day it rains.
- Adjust your controller to a lower setting during the winter.
- Upgrade your landscape to low water use plants, sprinklers and smart controllers.

**PART 1**

**Know when your soil is thirsty**

- Test your soil to see if it’s clay, loam, or sandy soil.
- Adjust your controller according to your soil type.

**PART 2**

**Locate your controller**

- Turn it off on rainy and windy days.
- Cooler temperatures means changing to a fall schedule.

**PART 3**

**GET FAMILIAR WITH YOUR CONTROLLER**

- Locate your manual and understand your controls.
- Visit www.bewaterwise.com to find a copy of your manual.

**PART 4**

**Know how to pick and place your plants**

- Choose low water use plants for your landscape.
- To help choose plants, visit: www.iegardenfriendly.com.

**PART 5**

**Make your irrigation more efficient**

- Consider replacing traditional sprinklers with efficient ones.
- To help improve water efficiency, visit: www.freesprinklernozzles.com.
