1. WORKSHOP

IEUA BUSINESS GOALS WORKSHOP
Manager of Contracts and Facility Services Warren Green stated that the purpose of the workshop is to continue the process of the IEUA business goals updates that were initiated back in this year. He reminded the Board that back in 2011, the Agency held workshops with member agencies and the IEUA Board of Directors to establish a levels of service. In 2013, staff took the levels of service and expanded them into business goals; each business goal having an objective and a commitment. Mr. Green stated that in 2016, the Agency decided to review the business goals, and update as needed. He stated that through the review process, there were numerous workshops were conducted with the Board and management. He reported that the original workshop in January, the Board recommended some changes to the language in the objectives and commitments. He stated that with the feedback from the Board, more workshops were conducted to continue review of the business goals and objectives and commitments. At that time staff recommended combining the objective and commitment statements. Mr. Green stated that this concept is the new structure being presented to the Board at this workshop for their comments.

Mr. Green gave a PowerPoint presentation on each business goal and corresponding objective statements and the commitments. He highlighted each business goal, objective and commitment for the following: Fiscal Responsibility, Work Environment, Business Practices, Water Reliability, Wastewater Management, and Environmental Stewardship. Additionally, Mr. Green presented some of the Agency’s actions, initiatives and programs that support the goals and objectives.

(Director Camacho left the meeting room at 10:15 a.m.)
(Director Camacho re-entered the meeting room at 10:18 a.m.)

Board comments:
Goals are verbose. The overall goals need to be clearly stated and easy to understand, and what follows would be the real substance of what staff would need to implement. An example noted was to eliminate specific phrases such as "...maintaining high quality credit rating...", and possibly reducing to end with "safeguarding short-term and long-term fiscal health".

There has been a big push to meet cost of service, which is important. But at the same time, it needs to be balanced with affordability.

Discussion on "affordable" water supply to Water Reliability goal.

Discussions ensued regarding other wording suggestions.

With no further business, President Catlin adjourned the meeting at 11:00 a.m.

Steven J. Elie, Secretary/Treasurer
