

Wildlife Observation Study / Nature Walk

Kindergarten-12th Grade

Activity Fact Sheet

Objective

To learn about wetlands and wetlands wildlife through discussion, observation, and surveying.

Overview

Students will be guided through the Park to observe plants and wildlife in the 22-acre Chino Creek Wetlands and Educational Park. Students will utilize their senses as they explore. Using checklists, students will observe and monitor the wetlands habitat. Students will engage in discussions about wetlands, habitat loss, the impact of human interference with nature, and develop an appreciation of wetlands and natural resources.

Length of Time

30-40 minutes

Water Discovery Field Trip Program
