AGENDA

MEETING/WORKSHOP
OF THE
BOARD OF DIRECTORS

WEDNESDAY, AUGUST 2, 2017
10:00 A.M.

INLAND EMPIRE UTILITIES AGENCY
AGENCY HEADQUARTERS
BOARD ROOM
6075 KIMBALL AVENUE
CHINO, CALIFORNIA 91708

CALL TO ORDER
OF THE INLAND EMPIRE UTILITIES AGENCY BOARD OF DIRECTORS
MEETING/WORKSHOP MEETING

FLAG SALUTE

PUBLIC COMMENT

Members of the public may address the Board on any item that is within the jurisdiction of the Board; however, no action may be taken on any item not appearing on the agenda unless the action is otherwise authorized by Subdivision (b) of Section 54954.2 of the Government Code. Those persons wishing to address the Board on any matter, whether or not it appears on the agenda, are requested to complete and submit to the Board Secretary a “Request to Speak” form which is available on the table in the Board Room. Comments will be limited to three minutes per speaker. Thank you.

ADDITIONS TO THE AGENDA

In accordance with Section 54954.2 of the Government Code (Brown Act), additions to the agenda require two-thirds vote of the legislative body, or, if less than two-thirds of the members are present, a unanimous vote of those members present, that there is a need to take immediate action and that the need for action came to the attention of the local agency subsequent to the agenda being posted.
1. ACTION ITEM

A. ADOPTION OF A RESOLUTION FOR A CWC 2017 WSIP GRANT

Staff recommend that the Board:

1. Adopt Resolution No. 2017-8-1, authorizing IEUA to apply for funding and enter into a financial assistance agreement with the California Water Commission (CWC) for the 2017 Water Storage Investment Program (WSIP); and

2. Authorize the General Manager to execute the financial assistance agreement, any amendments, and any grant related documents thereto.

2. WORKSHOP

A. LONG RANGE PLAN OF FINANCE WORKSHOP

3. ADJOURN

*A Municipal Water District

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the Board Secretary (909) 993-1736, 48 hours prior to the scheduled meeting so that the Agency can make reasonable arrangements.

Proofed by: Jennifer Hy-Dule

Declaration of Posting

I, April Woodruff, Board Secretary of the Inland Empire Utilities Agency*, A Municipal Water District, hereby certify that a copy of this agenda has been posted by 5:30 p.m. at the Agency’s main office, 6075 Kimball Avenue, Building A, Chino, CA on Thursday, July 27, 2017.

April Woodruff
Date: August 2, 2017
To: The Honorable Board of Directors
Committee: 

From: P. Joseph Grindstaff, General Manager

Executive Contact: Kathy Besser, Executive Manager of Ext. Aff. & Policy Dev./AGM

Subject: Adoption of a Resolution for a California Water Commission 2017 Water Storage Investment Program Grant

Executive Summary:

An official resolution is required to be adopted by the applicant's Board of Directors to apply for and enter into a financial assistance agreement, as mandated under the 2017 Water Storage Investment Program. The Chino Basin Water Storage and Recovery Project, with an estimated cost of $460,000,000, would construct an advanced water treatment facility and distribution facilities that would store up to 15,000 acre-feet per year (AFY) of water in the Chino groundwater basin, which would be dedicated for environmental benefits within the Delta. The project would leverage a partnership with an existing State Water Project Contractor (SWPC), which would allow for locally stored groundwater to be traded with north of Delta water supply. The locally stored water would be pumped to supplement the water supply for a SWPC and an equivalent amount would then be released by the corresponding SWPC north of the Delta. The proposed grant funding amount from California Water Commission (CWC) is about $460,000,000 for the capital cost of the project. This application will be submitted under the CWC grant funding category of conjunctive use, which can request up to 100% of capital costs. Other project administrative costs, estimated to be about $150,000, will be funded by the Agency's Planning and Environmental Resources Department budget.

Staff's Recommendation:

1. Adopt Resolution No. 2017-8-1, authorizing IEUA to apply for funding and enter into a financial assistance agreement with the California Water Commission for the 2017 Water Storage Investment Program; and

2. Authorize the General Manager to execute the financial assistance agreement, any amendments, and any grant related documents thereto.

Account/Project Name: WW Planning and Environmental Resources departmental budget for document costs.

Fiscal Impact (explain if not budgeted):

The impact of IEUA's current fiscal year budget would be for other project administrative costs which is estimated to be $150,000 for Fiscal Year 2017/18 and will be funded by Planning and Environmental Resources departmental budget for document costs.
Prior Board Action:
On April 19, 2017, the Board authorized IEUA to submit an application to enter into a financial assistance agreement for the WaterSMART Grant: Water Marketing Strategy Grants Program for Fiscal Year 2017 for developing the Chino Basin Water Market Plan.

Environmental Determination:
Not Applicable

Business Goal:
The action supports IEUA’s mission to increase sustainability through the development of water storage infrastructure that will contribute to water supply sustainability in a manner that is consistent with the IEUA’s mission of pursuing state and federal grants and low-interest financing.

Attachments:
Attachment 1 - Background
Attachment 2 - PowerPoint
Attachment 3 - Resolution No. 2017-8-1
In November 2014, California voters passed the Water Quality, Supply, and Infrastructure Improvement Act of 2014 (Proposition 1) authorizing $7.545 billion in general obligation bonds to fund ecosystems and watershed protection and restoration, water supply infrastructure projects, including surface and groundwater storage, and drinking water protection. Of this funding, $2.7 billion was dedicated for the investment in the public benefits of water storage projects and the California Water Commission (CWC) was designated as the agency responsible for allocating these funds.

The CWC called upon potential project proponents to submit concept papers that summarize potential water storage projects and their benefits. IEUA submitted a concept paper to the CWC on June 6, 2016. In March 2017, the CWC announced the Water Storage Investment Program (WSIP) to fund projects that provide public benefits associated with water storage projects that improve the operation of the state water system, are cost effective and provide a net improvement in ecosystem and water quality conditions. An official resolution is required to be adopted by the applicant’s Board of Directors to apply for and enter into a financial assistance agreement, as mandated under WSIP.

The Chino Basin Water Storage and Recovery Project, with an estimated cost of $460,000,000, would construct an advanced water treatment facility and distribution facilities that would store up to 15,000 acre-feet per year (AFY) of water in the Chino groundwater basin, which would be dedicated for environmental benefits within the Delta. The project would leverage a partnership with an existing State Water Project Contractor (SWPC). The partnership would allow for locally stored groundwater to be traded with north of Delta water supply. The locally stored water would be pumped to supplement the water supply for a SWPC and an equivalent amount would then be released by the corresponding SWPC north of the Delta.
Proposition 1 Water Storage Grant Application

Water Storage Investment Program
California Water Commission

Jason Gu, Grants Officer
August 2017
Background

- 2014 Proposition 1 Water Bond - $7.5B
- Water Storage Investment Program - $2.7B
- Managed by California Water Commission
- Fund Solutions to Improve State Water Project
- Project Must Provide at Least 50% Monetized Bay Delta Ecosystem Environmental Benefits
Proposed Project

- Establish Water Storage & Recovery System
- Construct Advanced Water Treatment Plant & Distribution System
- Store 15,000 Acre-Feet Per Year of Advanced Treated Recycled Water in the Chino Groundwater Basin
Proposed Project

- Chino Basin will Pump Stored Groundwater to State Water Project Contractor (SWPC)
- SWPC will Leave Behind the Same Amount of Groundwater in Northern California for the Bay Delta Ecosystem Environmental Benefits
Grant Funding & Cost Categories

- 50% Grant Funding for Capital Costs
  Groundwater and/or Surface Storage Projects
- 100% Grant Funding for Capital Costs
  Conjunctive Use Projects
  Reservoir Reoperation Projects
- IEUA's application is for a Conjunctive Use Project
Recommendation

- Adopt Resolution No. 2017-8-1, authorizing IEUA to apply for funding and enter into a financial assistance agreement with the California Water Commission; and
- Authorize the General Manager to execute the financial assistance agreement, any amendments, and any grant related documents thereto.

*This action supports the Agency's mission to increase sustainability through the development of reliable local water supplies and is consistent with the Agency's mission of pursuing grants and low-interest financing.*
RESOLUTION NO. 2017-8-1

RESOLUTION OF THE BOARD OF DIRECTORS OF THE INLAND EMPIRE UTILITIES AGENCY*, SAN BERNARDINO COUNTY, CALIFORNIA, AUTHORIZING THE INLAND EMPIRE UTILITIES AGENCY TO APPLY FOR AND ENTER INTO A FINANCIAL ASSISTANCE AGREEMENT UNDER THE 2017 WATER STORAGE INVESTMENT PROGRAM WITH THE CALIFORNIA WATER COMMISSION AND DESIGNATING A REPRESENTATIVE TO EXECUTE THE FINANCIAL ASSISTANCE AGREEMENT, AND ANY AMENDMENTS THERETO FOR THE CHINO BASIN WATER STORAGE RECOVERY PROGRAM

BE IT RESOLVED, that the Inland Empire Utilities Agency* (IEUA) is authorized to submit an application to the California Water Commission to obtain 2017 Water Storage Investment Program funding pursuant to Title 23, Division 7, Chapter 1 of the California Code of Regulations;

BE IT RESOLVED, that the IEUA is authorized to enter into a financial assistance agreement to receive funding for the Chino Basin Water Storage and Recovery Program;

BE IT RESOLVED, that IEUA’s Board of Directors authorizes the General Manager, or his designee, is hereby authorized and directed to prepare the necessary data, conduct investigations, file such application, execute a funding agreement, and any amendments thereto, and sign invoices with the California Water Commission; and

BE IT FURTHER RESOLVED, that IEUA’s Board of Directors hereby adopts Resolution No. 2017-8-1 on this 2nd day of August, 2017.

Steven J. Elie, President of the Inland Empire Utilities Agency* and of the Board of Directors thereof

ATTEST:

Jasmin A. Hall, Secretary/Treasurer of the Inland Empire Utilities Agency* and of the Board of Directors thereof

* A Municipal Water District
Resolution No. 2017-8-1

Long Range Plan of Finance (LRPF)

Workshop

Christina Valencia, Executive Manager of Finance and Administration/AGM
August 2017
Purpose of Long Range Planning

**Purpose**
Enables the Agency to effectively plan for future challenges and opportunities

**Basis**
FYs 2018-2027 Ten Year Capital Improvement Plan (TYCIP)
FY 2017/18 & 2018/19 Biennial Budget

**Scope**
20 Years
Fiscal Years 2017/18 – 2036/37

---

**Strategic**
- Provides a long-view for decision making
- Supports informed policy decisions
- Projects the impact of policy changes
- Leads legislative initiatives

**Financial**
- Identifies long term requirements
- Focuses on major drivers for revenues and expenditures
- Evaluates long term impact of current decisions
## IEUA Business Goals

<table>
<thead>
<tr>
<th>Fiscal Responsibility</th>
<th>IEUA is committed to safeguarding the Agency’s fiscal health to effectively support short term and long term needs, while providing the best value for our customers.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Funding &amp; Appropriations</td>
<td>IEUA will fund operations and capital investments by maintaining reasonable service rates and fees that <strong>fully support the costs of service.</strong></td>
</tr>
<tr>
<td>Budget Planning</td>
<td>IEUA will plan for multi-year budgets and rate requirements in support of maintaining <strong>fiscal stability</strong> for IEUA and the member agencies.</td>
</tr>
<tr>
<td>Reserves</td>
<td>IEUA will <strong>maintain fund reserves</strong> which can withstand significant changes to the economy and funding sources.</td>
</tr>
<tr>
<td>Creditworthiness</td>
<td>IEUA will <strong>improve its credit rating</strong>, with the goal of reinstating a AAA rating, to reduce IEUA’s future borrowing costs.</td>
</tr>
</tbody>
</table>
### Key Policy Decisions

#### Sources of funds
- Maintain rates that fully cover *O&M and *R&R costs
- "Growth pays for Growth"
- Property taxes to support capital investment and debt service costs
- Optimize grants and low cost borrowing to finance capital investment

* O&M = Operations and maintenance costs
* R&R = Replacement and rehabilitation costs

#### Uses of funds
- Continue commitment to sustainable cost containment for operating and capital costs
- Execute long term planning initiatives:
  - Support economic development
  - Establish water storage bank
  - Secure supplemental water supplies
  - Reduce energy costs and achieve carbon neutrality
- Fully fund retirement obligations
Sources of Funds
LRPF: Baseline

- No change in adopted multi-year rates through FY 2019/20
Sources of Funds
LRPF: Baseline

- No change in adopted multi-year rates through FY 2019/20
- After FY 2019/20 rates adjusted by *CPI

*CPI – consumer price index assumed at an average of 3%
Sources of Funds
LRPF: Baseline

- Conservative number of new connections projected throughout the 20 years
- Property tax growth of 3% per year

End of multiyear rates

Connection fees
Property tax receipts
Interest earnings
Capital reimbursement

Operating Revenues
Non-Operating Revenues
Proposed Debt

*CPI – consumer price index assumed at an average of 3%
Sources of Funds

LRPF: Baseline

- ~$377 million new borrowing needed to support capital investment over the next 10 years

*CPI – consumer price index assumed at an average of 3%
Uses of Funds
LRPF: Baseline

- Operating expenses adjusted by CPI

- Operating Expenses
- Debt Service
- Capital Projects

*CPI – consumer price index assumed at an average of 3%
Uses of Funds
LRPF: Baseline

- After FY 2026/27, capital project costs average ~$60 million per year

*CPI – consumer price index assumed at an average of 3%
Project Execution Timeline Based on TYCIP

- $662 million planned over the next 5 years

RP-5 $347M
RP-1 $62M
RP-4 $32M
CCWRF $27M
Other $194M

$315M

Inland Empire Utilities Agency
A MUNICIPAL WATER DISTRICT

Capital Projects
New Borrowing Needed to Support Capital Investment

- ~$377 million new borrowing over the next 10 years
- Total outstanding debt projected to peak at $470 million
Uses of Funds
LRPF: Baseline

- ~$38 million annual debt services costs projected over the next 20 years

[Graph showing annual debt service costs from 2016 to 2037, with peaks in 2021 and projected exceedance of $50M in 2024]
• Estimated ending fund balance below Minimum Level in FYs 2018 and 2019
Deferral of $120 million in the first 5 years can reduce:

- New borrowing requirements by ~$100M
- Annual debt service costs by $6.5M

Assumes deferral of $120 million to 2023 - 2027
Impact of Project Timeline Adjustment

- Adjusted fund balance meets Minimum Level due to lower capital projects costs and lower debt service costs.
Impact of Project Timeline Adjustment

- Improved debt coverage ratio (DCR) due to lower debt service costs
What Can Happen?

- If next recession occurs in the next 3 to 5 years
  - Slow down in new development = Lower connection fees
  - Drop in assessed property values = Lower property taxes
  - Lower revenues = Higher risk of uncollectible accounts
  - State budget deficits = Potential shift of property taxes from local government

- Lower borrowing cost = Lower interest rates
- Lower inflation = Lower construction cost
What Can Happen?

- Drop in new connections due to economic downturns
- 3,000 to 1,500 new connections per year projected beyond year 2020

Number of New EDU Connection
Member Agency Forecasts versus Actual/Projected EDU's Connected

![Graph showing new EDU connections from 1990 to 2020 with notable declines during recessions.]
What Can Happen?

Potential shift of property taxes to support State budget deficits

Admin Services $1.5M 3%
Recycled Water $1.5M 3%
Regional Wastewater Operations $9.5M 19%
Water Resources $5.0M 10%
Regional Wastewater Capital $32.5M 65%

Current Property Tax Allocation Based on $50 Million

Inland Empire Utilities Agency
A Municipal Water District
Rate increases will be needed to support program and debt service costs

- Admin Services: $1.5M 3%
- Recycled Water: $4.5M 9% ~$108 AF
- Regional Wastewater Operations: $9.0M 18% ~$12.50 EDU
- Water Resources: ~$4.0M 8% ~1.00 MEU
- Regional Wastewater Capital: $31M 62%

Inland Empire Utilities Agency
A Municipal Water District
What Can Happen?

- More extreme **dry** and wet weather cycles are forecasted
- Next drought may be longer and more severe
  - Reduced imported water allocations =
    - More reliance on local supplies
    - Rising salinity levels
- More stringent conservation standards = More investment in regional water use efficiency programs
- Water use efficiency = Higher concentration strength
What Can Happen?

- More extreme dry and **wet** weather cycles are forecasted
- Availability of supplemental water supplies
  - Funds needed to support purchase, conveyance and storage
  - Limited groundwater recharge
  - Less demand for recycled water

- Improved water quality = Reduced salinity
- Increased water storage = Future water sales
What Can Happen?

- More stringent environmental regulations to meet federal and state goals:
  - Reduction in greenhouse gas emissions
  - Water quality
  - Increased operating expenses
- Loss of tax exempt status for municipal bonds
  - Higher borrowing costs
- Funding opportunities to support changes in compliance requirements

Inland Empire Utilities Agency
A MUNICIPAL WATER DISTRICT
What Can Happen?

- ~45% of Agency employees are eligible to retire over the next 5 years;
  - Timely recruitment of critical positions
  - Recruit, develop and retain highly skilled employees
  - Integration of technology to streamline overall processes

- Lower retirement benefit costs for new employees
Proposed Scenarios

Scenario 1

Baseline

- CIP
  - FYs 2018-2027 based on TYCIP
  - FYs 2028-2037 annual average of ~$60M
  - New EDU connections
    - 33,000 first 10 years
    - 25,000 second 10 years

- O&M
  - FYs 2017/18 and 2018/19 Biennial O&M Budget
  - Operating revenues & expenses adjusted by CPI

Scenario 2

Economic Slowdown

- 30% reduction in new connection fees
- 10% reduction in property taxes

Impact:
Deferral of non-critical capital and special projects

Scenario 3

Property Tax Shift

- Shift of property taxes by the State to cover budget deficits
  - Estimated shift of $10M million per year (net of debt service costs)
- 50% reduction in new connection fees
- 10% reduction in property taxes

Impact:
- Rate adjustment
- Deferral of non-critical capital and special projects
- Suspension of additional payment to retirement obligations
## Key Policy Decisions

### Sources of funds
- Maintain rates that fully cover *O&M and *R&R costs
- "Growth pays for Growth"
- Property taxes to support capital investment and debt service costs
- Optimize grants and low cost borrowing to finance capital investment

### Uses of funds
- Continue commitment to sustainable cost containment for operating and capital costs
- Execute long term planning initiatives:
  - Support economic development
  - Establish water storage bank
  - Secure supplemental water supplies
  - Reduce energy costs and achieve carbon neutrality
  - Fully fund retirement obligations

* O&M — Operations and maintenance costs
* R&R = Replacement and rehabilitation costs
