He reviewed the two voting options and stated that the Board could vote for the slate recommended by the Region 9 Nominating Committee or vote for an individual Region 9 chair, vice chair and three to five board members. A brief discussion ensued regarding the ballot.
Upon motion by Director Elie, seconded by Director Parker, and unanimously carried:

M2019-9-3

MOVED, to vote for the slate as recommended by ACWA’s Region 9 Nominating Committee.

INFORMATION ITEMS

ENGINEERING AND CONSTRUCTION MANAGEMENT PROJECT UPDATES
Deputy Manager of Engineering Jerry Burke gave a PowerPoint presentation on the Engineering and Construction Management project updates. He provided updates on the following projects: Agency-Wide Recycled Water System Repairs and Improvements; RP-1 Filter Valve Replacement; RP-1 Civil Restoration and Upgrades; RP-4 Influent Screen Placement; NRWS Manhole Upgrades – FY 2019/20; and Agency-Wide Chemical Containment Coating Rehabilitation and Repairs.

MWD UPDATE
Manager of Government Relations Cathleen Pieroni reviewed MWD’s process for setting its rates and charges biennially by illustrating the rates and charges adopted by MWD’s Board in April 2018 for both Fiscal Years 2018/19 and 2019/20. She noted that in October 2018, the MWD Board updated the biennial rates and charges with the Board decision to support the CA WaterFix project. Contrasting MWD’s ten-year look ahead on rates and charges as established in April 2018 vs. October 2018, she illustrated that the projected annual rate increases had increased from 3 percent per annum to 4.1 percent annually. She stated that the comparison provides a good representation of the near term anticipated rate increases associated with the CA WaterFix project.

FY 2019/20 is the second year of MWD’s biennial rate-setting process and no changes to the FY 2019/20 rates were proposed. However, MWD did report that its CIP program had spent $100 million more than budgeted in FY 2018/19, requiring a change in its proposed financial approach. Typically, MWD budgets to fund 60% or more of its capital expenditures from operating revenues, not debt. In order to address the budget shortfall, MWD proposed funding FY 2019/20 capital expenditures by $30 million cash and $270 million from bond funds. Doing so is anticipated to help conserve cash reserves to buffer changes to revenues and expenditures and to mitigate future rate increases. Finally, Ms. Pieroni stated that MWD staff will soon begin the process of preparing the FY 2020/21 and 2021/22 biennial budget and rates. The final proposal will be presented to the MWD Board in April 2020.

CBWM UPDATE
General Manager Deshmukh stated that CBWM held Listening Session #6 of the 2020 Optimum Basin Management Program Update on September 11. He also stated that the draft 2020 Storage Management Plan was released on September 6, and IEUA staff is reviewing the documents.

SAWPA UPDATE
General Manager Deshmukh stated that the Commission unanimously approved the Inland Empire Brine Line Lease Agreement between SAWPA and the Chino Basin Desalter Authority for a period of six months with the option to extend. The Commission also approved a transfer of funds from SARCCUP Conservation Rates Fund Program to the Water Use Efficiency Program. On September 17, the Commission received an update on the Inland Empire Brine Line operational issues related to the brine line in IEUA’s service area and received a report on the
Disadvantaged Community Involvement Program, which will be presented to the Board in October.

CHINO BASIN PROGRAM UPDATE
General Manager Deshmukh stated that Sylvie Lee is in Sacramento working on the operational concepts of the Chino Basin Program (CBP) with the California Department of Fish & Wildlife and coordinating with MWD. General Manager Deshmukh stated that I EUA is working with Brown & Caldwell on developing the concept and alternatives of the project. I EUA continues to meet with stakeholders on the concept and is gathering information to address their inquiries. General Manager Deshmukh stated staff is looking forward to hearing from Ms. Karla Nemeth from the Department of Water Resources on her thoughts and views of the program. General Manager Deshmukh stated that I EUA held a workshop on September 5, which focused on the water sources, value proposition and the economic analysis.

LABORATORY SEMI-ANNUAL UPDATE
Manager of Laboratories Nel Groenveld stated that the Environmental Laboratory Accreditation Program (ELAP) of the State Water Board completed an assessment of the lab on August 1 and 2, 2019 and informed I EUA of some deficiencies. The Agency is awaiting the deficiency letter from ELAP. Ms. Groenveld informed the Board of the new instruments that were recently installed and reported on the Fiscal Year 2019/20 sample performance indicators. Ms. Groenveld stated that the lab is currently completing samples from the TCE Plume well development and RP-5. Ms. Groenveld announced she will be retiring soon. The Board congratulated Ms. Groenveld on her retirement.
