Scope: The WORK consists of all materials, labor, tools, equipment, apparatus, facilities, transportation and incidentals necessary to furnish, install, commission, start up and deliver a complete and fully functional project in accordance with Bid Documents. The project involves the construction of the upgrade and expansion of the Agency's existing RP-5 plant from a conventional activated sludge wastewater treatment plant to a 22.5 MGD water recycling treatment plant as shown and specified and with the capability of being further expanded to 30 MGD in the future. A detailed explanation of the project scope is listed in Section 01010 – Summary of Work. The project will be subject to California State Water Resources Control Board State Revolving Fund (SRF) grant requirements as included in Appendix PR-A. The site of the primary site of the WORK is located at Inland Empire Utility Agency's Regional Plant No. 5 (RP-5), located east of and adjacent to IEUA's headquarters at 6075 Kimball Avenue, Chino, CA 91708

Prospective Bidders for Project Regional Force Main Improvements Project (IFB-JV-19-021) - EN19025

Issued on 12/10/2019

Scope: It is the Agency's intent to provide gravity drainage for the RP-1 Headworks Building. All water from the washer compactor and any wash water in the building drain to an existing pit where a submersible pump is located which pumps water to an adjacent influent channel (See Attachment C). The submersible pump is only a 2 inch diameter and as a result, the pump occasionally fails which can result in the building flooding. To provide failsafe drainage for the Headworks Building, this project will the submerged portion of the building to an existing gravity drain.

Prospective Bidders for Project NRW East End Flow Meter (IFB-JV-19-022) - EN22002
