Subject: Environmental Consulting Master Services Contracts Award

Executive Summary:
Since 2013, the Agency has been contracting with Environmental Science Associates (ESA) and Tom Dodson & Associates (TDA) to provide Agency-wide environmental services through master contracts. These contracts provided consistent as-needed environmental consulting support for capital, operations, maintenance, and planning projects, and were successful in supporting resource agency permits as well as streamlining environmental analyses.

On April 9, 2020, the Agency solicited proposals for as-needed environmental consulting master services in preparation for the June 2020 expiration of the existing contracts. On May 26, 2020, the Agency received 13 proposals, with seven firms invited for virtual interviews. The Technical Evaluation Committee consisted of nine members, including staff from IEUA’s Engineering, Operations, Contracts, Grants, and Planning Departments, as well as an external member from the Chino Basin Watermaster. Considering the Ten-Year Forecast and past use of the master contracts, the Evaluation Committee recommends establishing three master contracts with ESA, Rincon Consultants, and TDA to provide the best value to the Agency. Staff recommends five-year environmental service master contracts, with the option of up to two, one-year extensions, and an aggregate total not-to-exceed amount of $3,000,000 for all three contracts.

Staff's Recommendation:
1. Award Environmental Services Master Contractsto ESA, Rincon, and TDA for five-year contract terms (with the option for up to two, one-year time extensions) to provide as-needed environmental consulting services;

2. Authorize the Master Contracts with an aggregate not-to-exceed amount of $3,000,000; and

3. Authorize the General Manager to approve, subject to non-substantive changes, and execute the Master Contracts.

Subject: RP-5 Expansion Contract and Labor Compliance Services Consultant Contract Award

Executive Summary:
The Regional Water Recycling Plant No. 5 (RP-5) Expansion Project construction contract was awarded by the Board of Directors in July 2020. During the bid phase of the project, Inland Empire Utilities Agency (IEUA) staff determined that a professional contract and labor compliance firm would be required to perform services specifically related to the administration, monitoring, and enforcement of labor standards for State Revolving Fund Programs, WIFIA Loan, and grants for the seven contracts (design engineer, construction manager, and five contractors) associated with the project. IEUA staff began procurement efforts to find a qualified firm.

On April 30, 2020, IEUA released a Request for Proposals (RFP) for contract and labor compliance services. On June 9, 2020, IEUA received seven proposals in response to this RFP. An evaluation committee consisting of IEUA staff and project consultants reviewed the proposals based upon the selection criteria described in the RFP. Four firms were shortlisted for interviews, which were held the week of July 6th. Based on the firm's qualifications, experience, capability, and understanding of the scope, the committee unanimously selected Casamar Group as the most qualified consultant to perform the services.

Staff's Recommendation:
1. Award a Contract and Labor Compliance services consultant contract for the RP-5 Expansion, Project Nos. EN19001 and EN19006, to Casamar Group for the not-to-exceed amount of $710,462.52; and

Subject: Coating Inspection and Assessment Master Contract Award

Executive Summary:

The Engineering and Construction Management Department manages the design and construction of capital improvement projects, rehabilitation projects, and emergency construction activities for Inland Empire Utilities Agency (IEUA). The current Ten-Year Forecast (TYF) budget is approximately $950,000,000. Within this forecast are current and future projects that will require coating inspection and condition assessment services.

On May 28, 2020, IEUA released a Request for Proposals (RFP) for coating inspection services. Four proposals were received on June 28, 2020, through PlanetBids. A panel of IEUA staff from multiple departments reviewed and rated each proposal in accordance with the categories in the RFP. The panel determined that the top two scoring consultants met IEUA's need for coating inspection and assessment services based on the evaluation of the cost of services, qualifications of proposed staff, and most relevant experience.

Staff is recommending the award of two aggregate consultant contracts in the total amount of $500,000 over a three-year period, with two, one-year options to extend. The two firms include CSI Services and Harper and Associates Engineering.

Staff's Recommendation:

1. Award aggregate consultant contracts for Coating Inspection and Assessment to CSI Services and Harper and Associates Engineering for a total aggregate not-to-exceed amount of $500,000 over a three-year period, with two, one-year options to extend; and

Subject: RP-1 Waste Wash Water Basin Pumps Replacement Construction Contract Award

Executive Summary:

A condition assessment conducted by HDR in 2018 found that the existing three waste wash water basin pumps and support structures at Regional Recycled Plant No 1 (RP-1) were severely deteriorated and in need of replacement. The existing pumps connect to vertical drive shafts extending through the ceiling coupled to the motors. These tall shafts make maintenance difficult for maintenance/operations staff.

This project will replace the existing pumps with dry pit submersible pumps similar to those at the Montclair Lift Station. Additionally, the work shall include redesigning the existing piping configurations to fit the new pumps, demolition and reconstruction of deteriorating concrete supports, rerouting the electrical into the basement, and replacement of the submersible sump pump/panel in the pump room basement.

On June 30th, 10 bids were received from the pre-qualified contractors for the project. Schuler Constructors was the lowest responsive, responsible bidder with a bid amount of $489,067.

Staff's Recommendation:

1. Award a construction contract for the RP-1 Waste Wash Water Basin Pumps Replacement, Project No. EN20058, to Schuler Constructors in the amount of $489,067; and

2. Authorize the General Manager to execute the contract, subject to non-substantive changes.

Executive Contact: Randy Lee, Executive Manager of Operations/AGM

Subject: Contract Awards for Turner Basins 1 & 2 and Turner Basin 3 & 4 Infiltration Restoration

Executive Summary:
As part of the groundwater recharge operations and maintenance activities, periodic cleaning of the basins is required. Fine-grained sediments, debris, and sidewall crust have significantly reduced the Turner Basin infiltration capacities, which now must be restored by mechanical means. Turner Basins 1 and 2 are being contracted simultaneously with Turner Basins 3 and 4 in an effort to secure more economical bidding for reduced costs. Turner Basin 1 and 2 conditions differ from Turner Basin 3 and 4 conditions in that Turner Basin 1 and 2 require additional floor grading, managing windrow structures, and additional volume of sediment removal.

Two Request for Proposals RFP-HD-20-009 and RFP-HD-20-010 were posted publicly on PlanetBids on July 14, 2020. A job site walk was conducted on July 21, 2020. Bid responses were received from three firms and were evaluated.

It is recommended that JCE Equipment be awarded both contracts for the Turner Basins 1 & 2 and Turner Basin 3 & 4 Infiltration Restoration.

Staff’s Recommendation:
It is recommended that the Board of Directors:

1. Approve the award of Contract No. 4600002943 to JCE Equipment for the Turner Basins 1 & 2 Infiltration Restoration Services for a not-to-exceed amount of $198,800;
2. Approve the award of Contract No. 4600002944 to JCE Equipment for the Turner Basins 3 & 4 Infiltration Restoration Services for a not-to-exceed amount of $152,500; and
3. Authorize the General Manager to execute the contracts, subject to non-substantive changes.

Re: Proposal for Contract Amendment No. 1 – Review of Potential Water Transfer

Background and Purpose

Inland Empire Utilities Agency (IEUA) is negotiating a recycled water development partnership with Jurupa Community Services District (JCSD). WestWater has been assisting IEUA with partnership structuring and formulating economic terms, including establishing an appropriate unit price for recycled water provided by JCSD. Further support is needed from WestWater as IEUA and JCSD continue refining the terms of their partnership. This document proposes an amendment to WestWater’s current scope of work, budget, and timeline to provide ongoing advisement to IEUA on partnership structuring and water pricing issues.

Scope of Work Amendment

WestWater proposes to amend the scope of work set forth in Contract No. 4600002867. In addition to completing the tasks set forth in the current contract, the scope of work will be expanded to include the following:

- **Scenario Modeling**: In coordination with IEUA, WestWater has prepared an economic model that estimates proposed recycled water development project costs in terms of present value per acre-foot. The model compares, on a consistent basis, estimated present values per acre-foot for recycled water to the costs of water supply alternatives. As requested by IEUA, WestWater will apply the model to run scenarios that may be proposed by IEUA and JCSD to estimate the cost impacts of the selected scenarios. Improvements or modifications to the model will be completed as needed.

- **Partnership Structuring and Term Sheet Development**: As requested by IEUA, WestWater will review and provide input on an ongoing basis regarding proposed structures and term sheets. WestWater will advise on the benefits and/or challenges of proposed structures, and recommend potential modifications. If needed, WestWater will be available to prepare term sheets or proposals in coordination with IEUA.

Timeline Amendment

The contract term will be extended through December 2020.

Budget Amendment

The estimated cost of the additional tasks is $15,000. Accordingly, WestWater proposes to increase the total not-to-exceed project budget from $15,000 to $30,000.
